**SUPPLEMENTARY INFORMATION:**

**Title:** Equine Survey.

**OMB Number:** 0535-0227.

**Expiration Date:** 03/31/2014.

**Type of Request:** To revise and extend a currently approved information collection for a period of three years.

**Abstract:** To improve information regarding the equine industry, several State Departments of Agriculture are expected to contract the National Agricultural Statistics Service to conduct an Equine Survey in their State within the next 3 years. Equine activities offer unusually varied opportunities for rural

development. In addition to providing the livelihood for breeders, trainers, veterinarians, and many others, the horse remains important to recreation. The number of operations, number of animals, and economic information will quantify the importance of the equine industry to State economies. Income data provides a view of the benefits that the industry provides to the State economy and a ranking of its relative importance within both the agricultural sector and the State's total economic sector. The expenditure information provides data regarding the multiplier effect of money from the equine industry, effects of wage rates paid to both permanent and part-time employees, and secondary businesses supported by the industry.

**Authority:** These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," *Federal Register*, Vol. 72, No. 115, June 15, 2007, p. 33376.

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to be between 20 and 25 minutes per response.

**Respondents:** Horse owners, breeders, trainers, boarders.

Estimated Number of Respondents: 40,000.

Estimated Total Annual Burden on Respondents: 15,000 hours.

**Comments:** Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods. All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., September 27, 2013.

Joseph T. Reilly  
Associate Administrator.
